ett3 A3 Ground Truth · group packet · README v06

Pin-up Fri Oct 30 2026, 12 pm. 14 sheets, all 11 x 17 landscape.

New in v05 (v06: D1 is the blank base plan for Part A; cover slot counts corrected)

- **D2 in three options**, same frame (1:40), same overlays and the full plant table: **A texture** (Polycam mesh texture), **B contours only** (white, the two fallen logs outlined), **C mesh** (wireframe, lightened). Pick one for the wall; all three are in the packet (sheets 02 to 04).
- **Bird nest** (abandoned, in a shrub near the log, ~6 ft / 1.8 m) on D2 and D3a. It was not found in the splat, so it is placed at s 4.5 m: **confirm the position.**
- **P1 = the fallen log, northern red oak (Quercus rubra)**, on D3b: line drawing from the scan mesh (Blender Freestyle, side view 1:30), measured length 5.75 m, diameter ~0.20 m. Text is DRAFT. P2 and P3 are yours.
- **D3d Species** (16 rows, from the photos, the proxy CSV and the oak) with the **utility pole** as a companion species. [CHECK] = indicator or invasive status not looked up yet.
- **Site Photos** and **Nest Habitat Adaptation** are built in InDesign (live captions, empty nest photo slots).
- 2013 note: the wetland beside the transect is the constructed stormwater wetland (Oct 2013, DCR / Cambridge / MWRA).

Which file to open

- **Review:** ett3-A3_packet_review_v06.pdf (every open slot boxed and numbered, list at the end). ett3-A3_packet_v06.pdf is the clean print set. png/ has one PNG per page.
- **Draw:** ai/ett3-A3__vNN.ai, one per drawing sheet, or ai/ett3-A3_packet_v09.ai (12 artboards). Rasters are linked from links/.
- **Lay out:** indd/ett3-A3_packet_v09.indd (or .idml). Drawing pages place the sheet's .ai; pages 10 and 11 are native InDesign: drop photos into the frames on layer photos, type on layer group-edit.

Fonts

Public Sans (OFL). Mac: double-click each OTF in fonts/ > Install. PC: right-click > Install.

Editing rules

- Work on a copy, add your initials: …_v02_MK.ai. Never edit underlay or plan (locked). Draw on annot-field.
- Species: edit 01_src/ett3-A3_species_v01.csv (send to Marko) when you confirm an ID.

Open slots (numbers match the review PDF)

Sheet	What	FIELD	DATA	CONFIRM	CHECK	P
